

# RYMAN CONSTRUCTION GOLDEN RULES

We are always licenced and competent when operating plant

We always isolate all energy sources before working on equipment and systems

We come to work free from impairment, alcohol and drugs

We ensure plant and equipment is safe to use

We work safely at height

We store, handle and control hazardous substances safely

We always observe walkways, safe zones and exclusion zones

We always make sure loads are secure and within safe working load limits before moving them

We always follow the Permit process when a Permit is required

Our temporary works are appropriately designed, engineered and installed

# We are always licenced and competent when operating plant

We speak up when we don't have the right training  
or don't feel safe

We drive to the conditions of the site

We slow down or stop at junctions & intersections

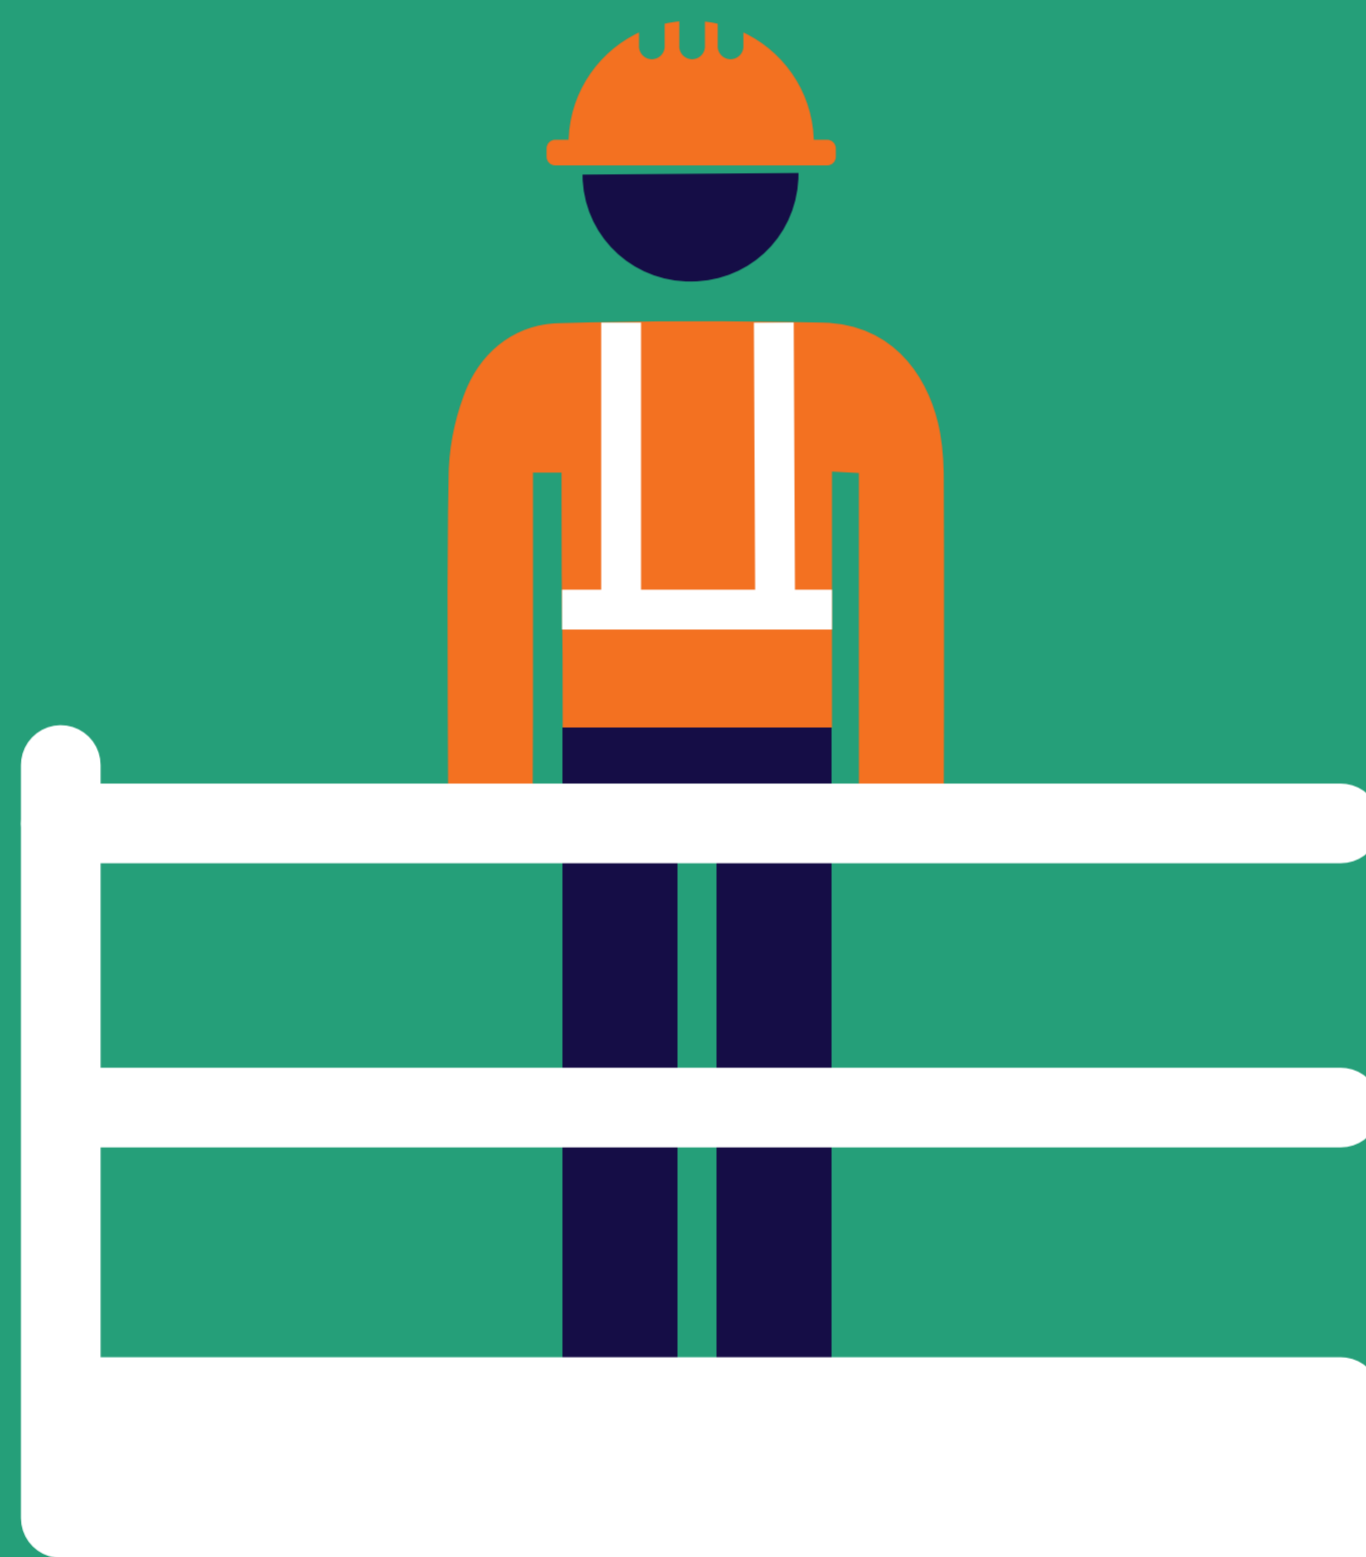

**We come to work  
free from impairment,  
alcohol and drugs**

***We do it safely or not at all***

**RYMAN CONSTRUCTION  
GOLDEN RULES**

# We work safely at height

Only Scaffolders make changes to the scaffold

We keep our scaffolding clean

We isolate and stay away from live edges

***We do it safely or not at all***

**RYMAN CONSTRUCTION  
GOLDEN RULES**

# We always observe walkways, safe zones and exclusion zones

We wait for the 'all clear' before moving past a lifted load

We stay in the 'safe zone' outside the swing area  
of mobile plant

**We always follow the  
Permit process when a  
Permit is required**

**We always isolate all  
energy sources before  
working on equipment  
and systems**

**We always engage trained and competent professionals  
to work on energy sources**

***We do it safely or not at all***

**RYMAN CONSTRUCTION  
GOLDEN RULES**

# We ensure plant and equipment is safe to use

We complete pre-start checks before use

We operate within the manufactures instructions

We always use RCD's when working with power tools and equipment and make sure they are tested and tagged

# **We store, handle and control hazardous substances safely**

We always follow the Safety Data Sheets (SDS)

We always store hazardous substances in labelled containers

**We always make sure  
loads are secure and  
within safe working load  
limits before moving them**

***We do it safely or not at all***

**RYMAN CONSTRUCTION  
GOLDEN RULES**

# Our temporary works are appropriately designed, engineered and installed

We have expert approval to remove propping

We protect people in deep excavations
